## Hamish's Journey

Hamish Hey was first diagnosed in June 2011 with a metastatic alveolar rhabdomyosarcoma - a rare and aggressive soft tissue cancer.

At just 2 years old, Hamish underwent 14 months of gruelling treatment, intensive chemotherapy and radiotherapy, together with a pioneering surgery called rotationplasty, resulting in him having to be fitted with a prosthetic limb.

During the following few years Hamish miraculously fought on, living life as best a little boy should, but with regular checkups and extensive routine medication, primarily to control the longterm side effects of the treatment.

Then tragically, in March 2016, now aged 7, Hamish was diagnosed with a DIPG - an aggressive, inoperable tumour within the brainstem, for which there is no cure. This diagnosis was completely unrelated to that in 2011.

Hamish underwent 30 sessions of radiotherapy, but this treatment was only palliative to allow him a little more time with his loving family and friends.

Hamish passed away peacefully in his mother's arms at home on the 20th February 2017.

## Hamish's Legacy

#TeamHamish will create something positive and exciting for Nairn.

Throughout Hamish's illness, we have been truly overwhelmed by the love and support that we have received from so many over the years, particularly from the Community of Nairn.

We now feel that it is time to thank the People of our town.

Our plan is to create special family spaces; places and areas for all ages and abilities to experience and enjoy. In doing this we will radiate the love that we hold for Hamish.

Our wish is to ensure that Hamish's memory lives on in this legacy for future generations in many years to come.

## NICE Nairn

To bring our ideas to fruition and ensure ongoing maintenance, #TeamHamish have affiliated with the Nairn Improvement Community Enterprise. Having been appointed Directors of NICE, we can draw on their wealth of experience and work within the Community to develop our proposals.

Under the umbrella of NICE, as a Registered Scottish Charity, this opens up potential avenues for funding, grants and Gift Aid.

Fun

Accessible and inclusive

Play

Working with the Community

Enhancement of existing natural assets

Harnessing social capital

Destination

Holistic approach for all areas

Sensitive integration with existing features and natural topography

A cohesive journey

## Concept Principles

For all ages and abilities

Maintained and sustainable for future generations to enjoy

Respect for existing trees

Local artists & sculptors

Incorporation of local businesses

Catalyst

All year round use

Sculpture

Quiet and contemplative spaces

Creative Landscaping

Water features

Seating and tables

Access to beach

Interactive Pieces

Viewing platforms

## Concept Ideas

Outdoor musical instruments

A connection of follies

Play areas

Adventure trail

An interactive trail of walks & paths

Shelters and undercover areas

Water heated by renewable sources

Events areas

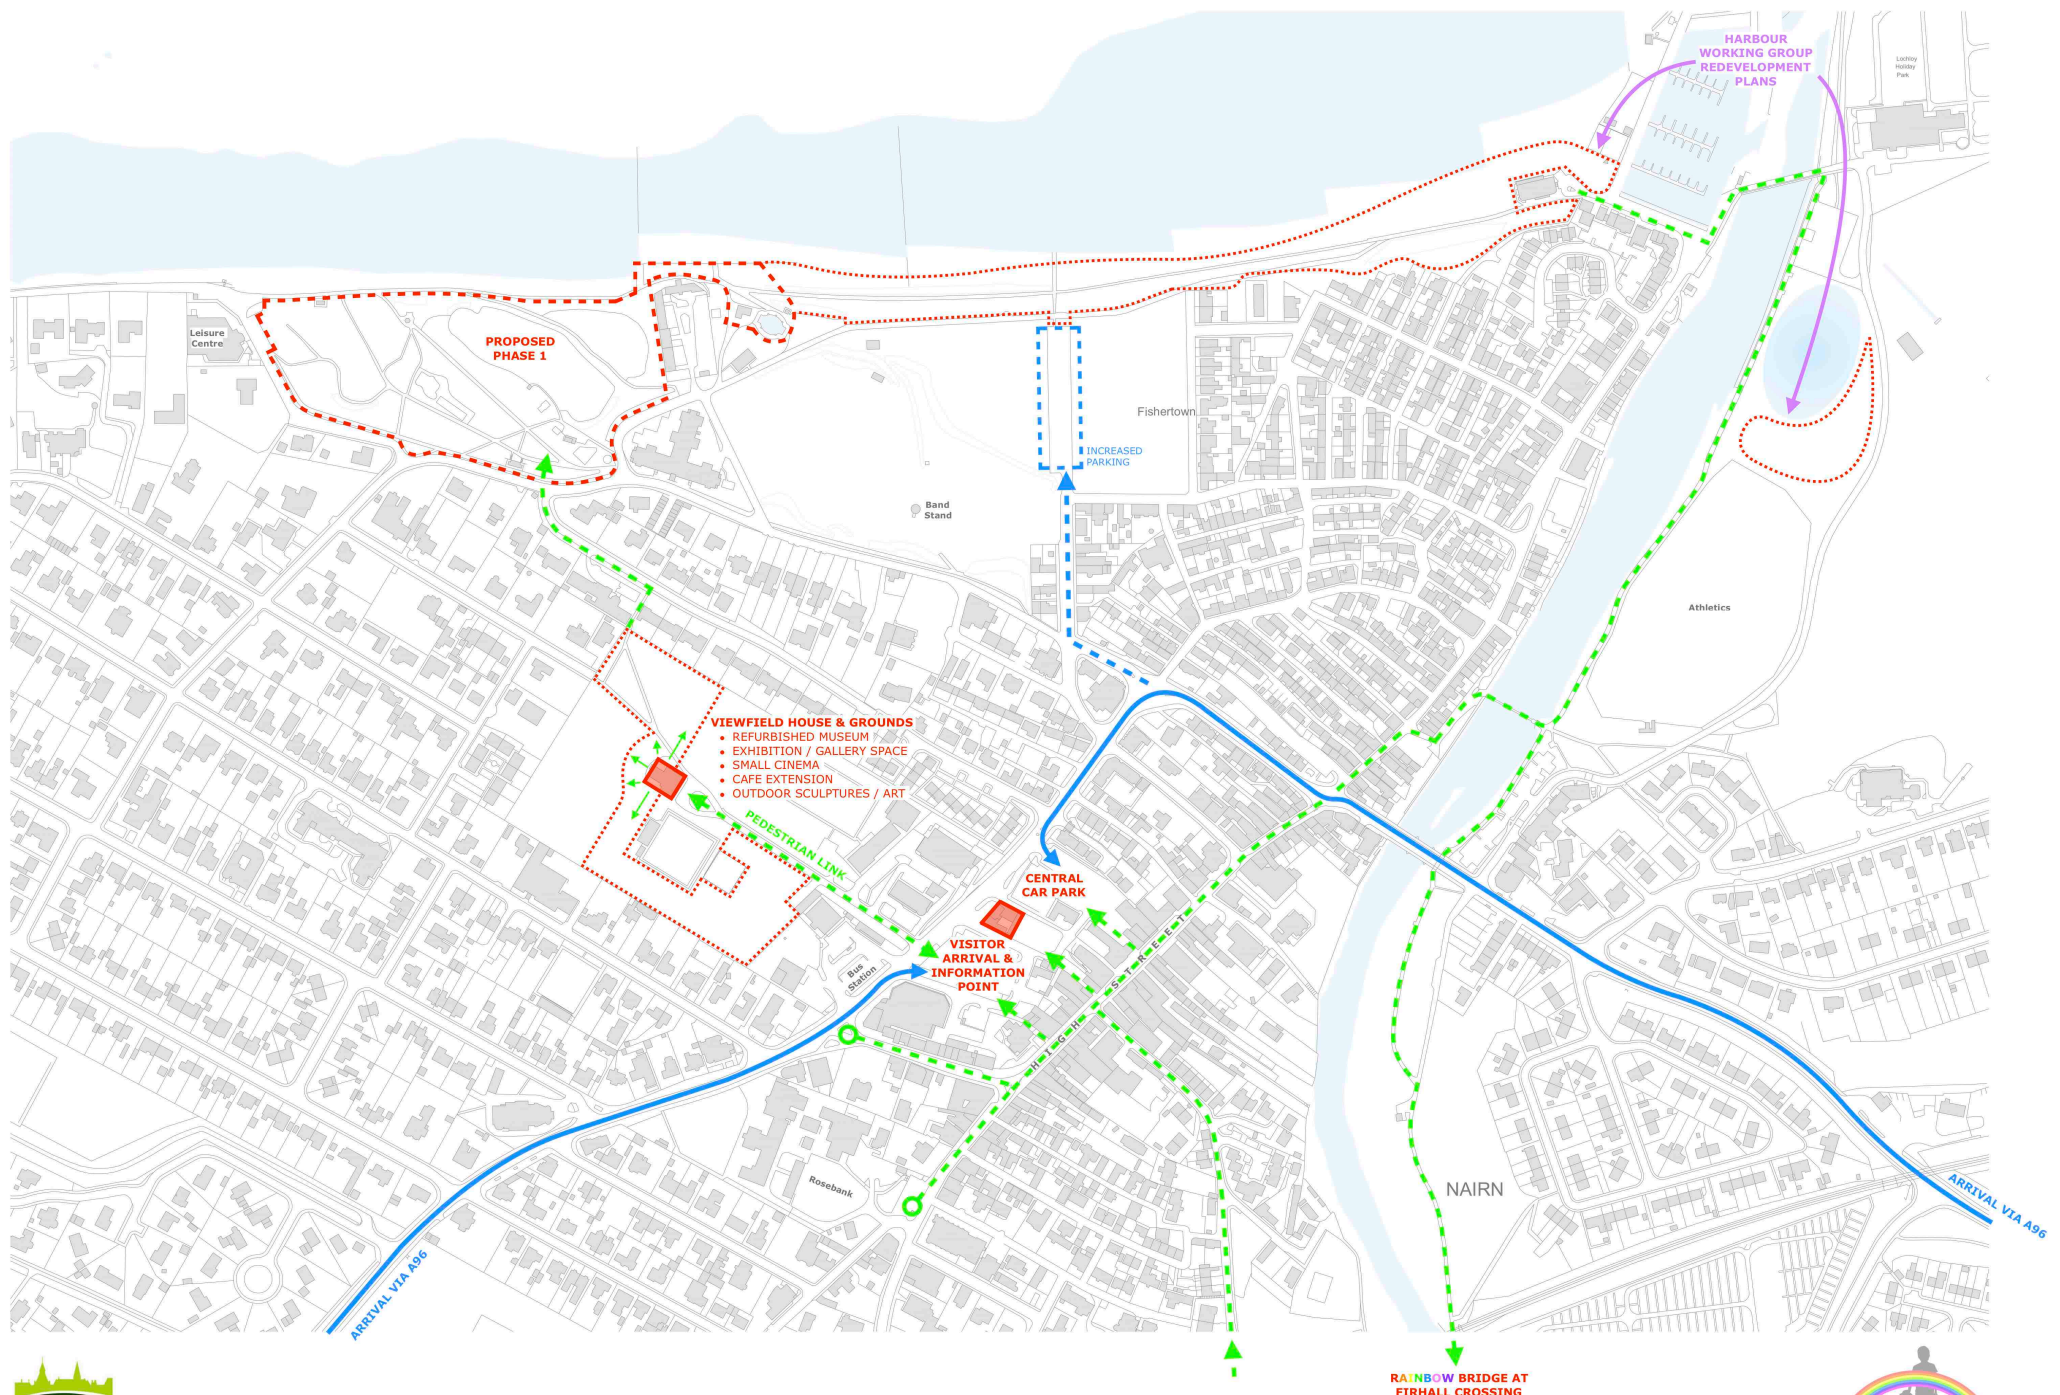

Golf

Art installations

Water park
